

Drone/UAS fact find

Fair presentation:

It is important that you tell us everything about what you want us to insure, including any specific concerns that led you to seek cover. To do this, you need to answer all questions we ask you accurately and to the best of your knowledge and ability by making specific enquiries of partners, directors and senior management involved in the business and its subsidiaries. You must tell us of anything that may be important for insurers to know so that they can make decisions on whether to offer cover, the type of cover to offer, the terms to be applied and the required premium.

If you don't do this and a relevant piece of information is missed, then you may not be covered correctly, your insurance may be invalid or you may be charged a higher premium. If you are in any doubt/unsure then just tell us. For example, you should inform us of any different, special or any unusual aspects of your business activities in comparison to what would be considered 'normal' in the marketplace for your trade, business or profession.
